- Window frame in double glued nordic softwood, already pre-installed
- Window drip cap in wood
- Window openings inward
- Fittings pre-installed

Door:

- Door frame pre-installed
- Door frame in double glued Nordic softwood
- Including pre-installed screw-in hinges and milled locks
- Door incl. cylinder lock
- Door threshold on selected models in aluminium
- Code: SGC/MGC
- Roof boards 15 or 18 mm thick

SNAP & WATCH

BRONZE

How you benefit

Windows:

- Single glazing 4 mm
- Window frame in glued Nordic softwood, already pre-installed
- Window drip cap in wood
- Window openings inward
- Fittings not pre-installed

Door:

- Door frame not pre-installed
- Door frame in glued nordic softwood
- Including pre-installed screw-on hinges and simple locks
- Door incl. cylinder lock
- Door threshold on selected models in aluminium
- Code: SGA
- Roof boards 15.5 mm thick

SNAP & WATCH

ALU

How you benefit

Doors:

- Door-/frame made of aluminium
- Easy to install
- Including sliding mechanism
- Door including cylinder lock
- Aluminium door threshold

Lasita Maja.

MORE THAN 20 YEARS OF QUALITY

EVERY GARDEN CABIN BEGINS WITH A DREAM.

It's your dream. At Lasita Maja, we bring it to life.

As an experienced manufacturer of high-quality log cabins, we produce children's playhouses, pavilions, garages and individual holiday homes, as well as classic garden cabins. To do this, we use the best wood and combine modern and gentle processing technology with traditional craftsmanship and secure packaging. We are well aware that high quality equals happy customers. And if there's one thing that matters most, it's getting the details right.

THE BEST QUALITY

We use only selected Nordic softwood for our garden cabins. Its flexible properties make it perfect for use as building and construction timber. Its slow growth in Europe's colder regions makes the wood particularly sturdy and solid. In general, wood is a sustainable, renewable raw material. As we place great value on environmentally responsible timber management, all our products in this catalogue are PEFC certified.

LASITA MAJA

OUR RECIPE FOR SUCCESS: HIGH-QUALITY NORDIC RAW MATERIALS, STATE-OF-THE-ART PROCESSING AND DECADES OF EXPERIENCE.

To ensure that we deliver a unique product, we rely on a combination of long-standing employees with a great deal of experience and modern machinery. Trained eyes inspect and sort the materials and components. Our precision machine tools saw, plane and mill the individual parts to the correct dimensions and shapes. Before being carefully and securely packed, everything undergoes a final inspection.

In order to be able to offer our customers the best quality, we have implemented a quality management system that complies with the requirements of the ISO 9001 standard. Our products also come with a 2-year or a 5-year warranty.

DELIVERED TO YOUR DOOR

The assembly kit

Your garden cabin will be delivered as a complete kit in one or more packs. Comprehensive assembly instructions are included. If you do not begin assembly immediately after delivery, store your garden cabin in a dry location, protected from UV light.

Delivery

We deliver our products to your specialist dealer on request or “to the kerb” at your home for an additional charge. Delivery will be made on the agreed date using a 40 t HGV. There must be no restrictions to access for this vehicle.

Presenting:

THE HIGH-END PAINT SYSTEM FOR GARDEN CABINS MADE IN ESTONIA.

The environmentally friendly water-based stain is ideal for professional use outdoors and provides lasting protection for your garden cabin.

www.lasita.com

LASITA MAJA

ALMOST ALL CABINS IN 4 COLOURS. NO UNDERCOAT REQUIRED!

Light Grey

Carbon Grey

New - Green-grey

Swedish Red

Our 4 colours

Wooden doors, windows and cover strips are always supplied in a timeless cream white, which in combination with the main colours results in four attractive variants. In addition, we offer a water-based glaze - a reliable and long-lasting protection that is ideal for professional outdoor use.Please note that the colours shown may differ slightly from the actual finish, as printing inks affect colour reproduction and therefore slight differences may occur.

At a glance

- Garden cabin delivered as standard with a natural finish
- Environmentally friendly and low-odour treatment
- Ideal protection against weather, fungi, insect infestation, mildew and blue stain
- Recommended maintenance interval 5 years (depending on location, compass direction and colour), Lasita Maja warranty max. 5 years**.
- Slight colour differences are possible due to the nature of the wood.

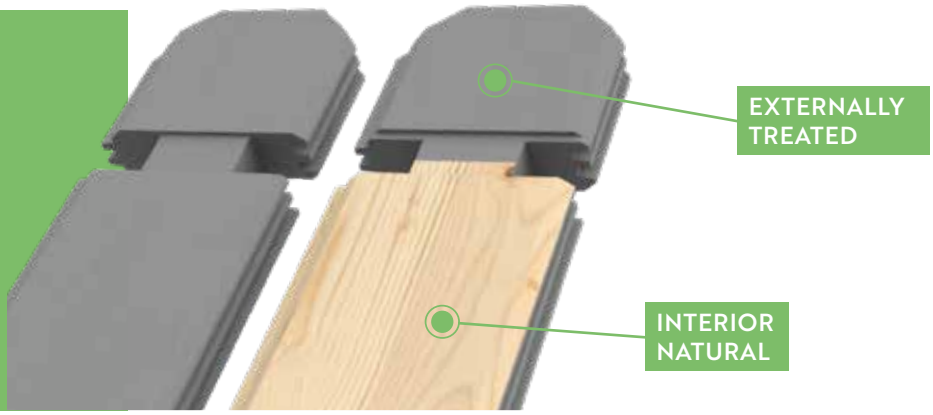

The advantages of our wood treatment

- No undercoat required.
- 3-sided colour treatment of the wall boards
- Natural finish on the interior, creating a natural feeling of wellbeing inside
- Unique six-sided colour treatment of the log corner joints and log heads
- Natural roof purlins and roof boards

**Find out more about our warranty conditions in the installation instructions or at www.lasita.com.

REVERSE INSTALLATION

Please note that reverse installation of coloured garden cabins is not possible due to the one-sided colour finish!

ACCESSORIES

STANDARD ROOFING FELT

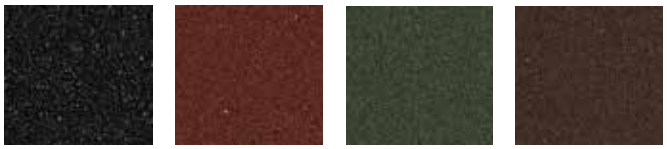

Suitable for short-term use or as underlay for other roof coverings such as shingles or premium roofing felt, available in classic grey, on a 10 m² or 15 m² roll, dimensions 1 x 10 m

	ROLL 10	ROLL 15
Item number	261	262
Floor area	10 m²	15 m²

PREMIUM ROOFING FELT

High-quality polymer bitumen roofing felt – suitable for long-term, waterproof covering of roofs, available in 4 colours, on 15 m² roll, dimensions 1 x 15 m

	BLACK	RED	GREEN	BROWN
Item number	37449	37451	37452	37453
Floor area	15 m²	15 m²	15 m²	15 m²

ONDULINE

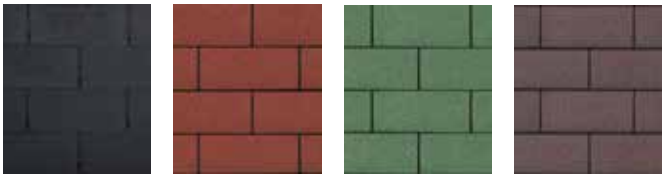

ONDULINE KSK-M is a cold self-adhesive roofing membrane with an aluminium top layer and a particularly high adhesive strength. It is easy, safe and quick to apply. The aluminium top layer offers outstanding protection against UV radiation and other environmental influences. The substrate must be dry, stable, frost-free, grease-free and resistant to abrasion. Does not stick to silicone. Unevenness, holes and similar must be levelled or filled. Dimensions 500 × 100 cm

	GREY
Item number	37470
Roof area	5 m²

ROOF SHINGLES

The 3-strip roof shingles are the most widely used roof shingles. They are easy to install and guarantee a stylish, high-quality appearance, available in the 4 most popular colours, 3 m² per pack.

All about the garden cabin

GOOD TO KNOW.

What should I consider before ordering a garden cabin?

The assembly of a garden cabin is usually regulated by local authority regulations. Prior to ordering, enquire about the applicable regulations from your local authority. We will be happy to provide you with the relevant technical data sheets and also have static calculations available for many models.

How will my garden cabin be delivered?

We deliver our garden cabins and kits to our retail partners; on request also “free to the kerb” at your home.

Does my cabin need a foundation?

We recommend assembly on a firm foundation to which the garden cabin can also be attached. Ideally, you should create a foundation slab. This should be slightly smaller (1-2 mm/side) than the substructure.

What tools will I need for the assembly?

For correct assembly, you will need, among other things: Phillips and possibly Torx screwdriver, cordless screwdriver, wood drill, power drill, universal pliers, Stanley knife, saw, inch rule, spirit level, string, hammer, pencil, possibly glue, possibly clamps and a ladder. At all times, when using tools, ladders etc., ensure safe handling and a secure footing. All the required screws and fittings are included in the kit.

What must I consider before assembling my garden cabin?

Read the assembly instructions and check the kit against the parts list for completeness, damage and integrity. Please note: Garden cabins and holiday homes made from wood are a natural product. Hairline cracks, gumming, knots and minor warping of the wood do not constitute grounds for complaint, as these are product-specific characteristics that do not affect the use of the product. Our blockboard assembly kits (exception: system and panel cabins) must not be screwed permanently into the walls or at the door. The boards remain “loosely” connected and must have the opportunity for flexible movement (lifting and lowering).

How can I complain about damaged parts?

Complaints are accepted if they are made in writing within 14 days of delivery of the cabin.
To do this, mark the relevant parts on the parts list and send this with the purchase receipt and assembly instructions (incl. control no.) to your dealer. They will process your complaint with us. A digital photo or presentation of the parts that you are not happy with serves as proof.

How do I ensure permanent protection of the garden cabin?

Our components are natural. Therefore, once assembled, you must paint the cabin, windows and doors on the interior and exterior with at least a colourless wood preservative.
It is recommended that you use environmentally-friendly water-based products for this and refresh the protective coating at intervals of at least two years.

What form does the roofing of a garden cabin take?

If roof covering is included in the scope of delivery, we supply bitumen roofing felt for the initial covering. This should be renewed after approx. one year in order to maintain long-term rain protection. We also offer bitumen roof shingles in a high-quality and resilient form which protect the roof for a longer period of time. For our flat-roof models, we recommend our Onduline KSK-M roofing membrane as well as our gutter sets (see Accessories).

LASITA MAJA – Paint system

CARE INSTRUCTIONS.

For lasting enjoyment of your colour-stained log cabin, it is necessary to maintain the surface professionally on a regular basis. If you carry out this maintenance yourself, please read the general safety instructions in our assembly instructions and also the corresponding maintenance information. Should you need paint for repainting, please contact your specialist dealer, they will be happy to help you.

It is important to clean the surface regularly. This will significantly extend the life of your product. Inspect your garden cabin every year for possible dirt, algae growth, damage, delamination or paint degradation. It is also important to keep the paint surface free of vegetation or plants. They prevent adequate ventilation and lead to moisture build-up. Pay particular attention to the sides facing the sun. These are exposed to more UV radiation and may need more attention.

MAINTENANCE / REPAINTING:

1. Clean the surfaces to be maintained with an appropriate cleaning agent.
2. Remove loose or porous layers of paint, preferably with a suitable abrasive material.
3. Apply the maintenance coat with a suitable brush. Ensure the paint is applied thickly and evenly.
4. Allow the paint to dry well (at least 48 h).
5. Apply a second coat to the renewed surface (attention, little paint absorption!), thereby protecting the surface.

If you carry out this maintenance correctly, you will enjoy your garden cabin for many years.

If you have any questions, please do not hesitate to contact us or your specialist dealer.
