The smooth and easy movement of the window fittings and also the service life of your window largely depends on the nature of its care.

At least once a year, the user must carry out the following maintenance jobs on windows and patio doors:

- ☼ Grease all moving parts and locking points and verify their proper function.
- + Retighten the fixing screws of the handle (remove handle rosette carefully).

We recommend to conclude a service contract.

When problems appear such that a safe function of the window is no longer guaranteed, please call in your window specialist without delay.
